

Art series :: Me(n)talic :: 2026 :: Metallic Pen on black or purple paper (220g)

Abstract drawings ::  
Intuitive lines, figures and symbols

Similar like the gouache artworks,  
the artist is following her intuition  
In drawing continous lines, and  
creating the shapes inside  
and between them.

Every drawing is made with free hand  
and unique, confrontingd the viewer  
with microcosmic world(s) that  
offers individual and collective signs of  
the human mind that opens space  
for sensitivity and interpratation.

Just like the gouache artworks, also  
these metallic pen-artworks are  
dynamic and can be placed  
in four positions.
